

Surgery Preparation

Thank you for choosing to have your refractive surgery with Chang Eye Group! Your surgery appointment is scheduled for

_____@_____

TLC Laser Eye Centers
1606 Carmody Ct Suite 101, Sewickley, PA 15143

Tips for your surgery day

1. Make sure you have a driver lined up on surgery day and for your one day follow up appointment. Patients need clearance from the doctor to be able to drive which usually happens after one day of recovery.
2. Contact lenses must be removed 5 days prior to surgery for soft lenses, and 4 weeks for hard/gas permeable lenses.
3. **NO** mascara 3 days before surgery.
4. On the day of surgery, please refrain from wearing makeup, face lotion, cologne or perfume. Eye make-up will not be able to be worn 1 week after treatment.
5. It is recommended to eat prior to surgery and you may drink normally.
6. Make sure to thoroughly read your consent forms and bring them with you on treatment day. Please do not sign these ahead of time because we will need to witness you signing them upon check-in.
7. Full payment is required on surgery day. If you are financing through CareCredit®, please make sure to bring your account information as well as your card which will be sent in the mail. The financing application must be taken care of prior to check in. We also accept credit cards, cash and personal checks.
8. You should plan to go home and nap for 2 to 4 hours after your surgery. We can provide you with Tylenol pm to help you sleep if desired.
9. Following your one day post operative appointments, you are to come see us or your optometrist at one week, one month, three months and six months post surgery to make sure your eyes are healing properly. Annual exam are also recommended. We will be happy to coordinate with your eye care professional or welcome you to make those appointments with us.

If you have any questions about surgery, please do not hesitate to contact us ahead of time at 412-429-2020 option 6.
